### HENNA ART SERVICES IN MEXICO

Verónica de la Paz is a professional artist and graphic designer with a strong background in fine arts, and currently resides in Cancun, Mexico.

Her work shows an undeniable relationship with spirituality and it is strongly influenced by the belief that painting can be a self-discovery journey that allows you to reconnect with your heart, it is a doorway to your soul...

In 1996, she began teaching others through Painting and Illustration classes, Creative and Intuitive Painting and Mandala workshops.

Also as a Yogi, she has been practicing meditation and studying the ancient wisdom of India for almost 20 years, and this led her in 2011 to live in Maharashtra, India. This profound experience changed her life, and her professional career took a turn, inspiring her to live and learn the art of Mehndi.

Her personal insight on millenary traditions has become the backbone of her mehndi artist's career. She respects the significance of such a rich and vibrant culture: Mehndi is a sacred and beautiful art form that has been used for thousands of years to heal, adorn and bless.

With a contemporary touch and inspired by traditional Bridal Mehndi, she offers a diverse range of henna services in and around the Cancun and Riviera Maya area.

Verónica also believes in providing quality professional services and prides in making out of Mehndi a comfortable and special experience.

She understands that even a happy event like a wedding can be stressful, and often, the stress causes physical ailments. Mehndi, besides lending color to the hands, is also a very powerful medicinal herb and its application can relieve stress naturally by cooling the body and keeping the nerves from becoming tense. This is one reason why mehndi is applied on the hands and feet, which are some of the densest areas of nerve endings on the body.
